ECLISSE

design_Massimiliano Raggi

As the most celebrated natural event, the suspension “Eclisse” plays with lights and shadows, unveilments and overlapping of the Matter. Simple forms which create an eye-catching piece that becomes protagonist.

New concept of illumination where the main light (LED down light) comes from the ceiling disc and with the side rings that are the secondary and emotional light.

CLESSIDRA

design_Massimiliano Raggi

Mark the time with the light...or stop it, if you want to.
The "Clessidra" table lamp, simultaneously filters and contains the light through the use of mirrored glasses. Double switching for a dual effect: light and emotions.

UFFIZI

design_Massimiliano Raggi

An essential, and at the same time precious lighting and ancient frame, like the marble which it is made of. The wall sconce “Uffizi” illuminates soberly and elegantly, suitable for the functional use of a lighting fixture as well as for decorating walls like an art piece.

STARDUST

design_M. Di Mauro & M. Colli

Inspired to the large classical chandeliers. Stardust design evokes their typical characteristics, but where any unessential decorative element is removed.

Thanks to cut edge LED technologies it has been possible to completely hide the lighting source and to emphasize the essentiality of the shape.

ADA

BELLE

design_Staffan Tollgard

A functional sculpture, an immaculate execution of BELLE succeeds in concealing its function until closer inspection.

The visual contrasts between exterior and interior enhances the designer's play on expectations.

Born as a ceramic piece, now also developed in hand blown glass for the small version.

CALYPSO

design_Servomuto

Calypso is a collection of small lamps inspired to the Forties. They show a connection with the tropical and Southern American World, where the European Deco style, characterized by geometrical lines and black & whites, is twisted and revitalized, thanks to bright colors, patterns and twines.

The frosted glass diffuser, used in the first industrial lights, with a precious brass ring, recalls the Art Deco style.

Servomuto designed Calypso as a family of lamps tightly connected to the tradition, and with a pronounced sense of humor.

CONTARDI FOR READING

They represent in full Contardi's flexibility, eclecticism and attention to details.

The quality of the light for reading has become a priority in any project, either residential or hospitality.

That is why Contardi has focused its attention to this category so to offer a range of refined, detailed and out of the ordinary task lights, and respond to a growing demand of a higher quality and performance.

This is ***"Contardi for reading"***

UP

design_Massimiliano Raggi

Born as the first desk lamp by Contardi.

Contardi reinterprets, with a modern-classic touch, the traditional image of the desk task light: UP is tailored and timeless, with silk and precious finishes.

UP is full range with Floor, Wall and Reading Light “*Contardi for reading*” and ceiling.

QUADRA

design_Alltogether - Massimiliano Raggi

SQUARE, simple in its variety, the first expression of Contardi's «white shirt philosophy».

The Quadra range wins for being the simplest but also the most stylish solution just as a white shirt that has been accurately made by shirtmaker.

Residential, hospitality, commercial: it always fits.

RETTANGOLA

design_Alltogether

Rectangular.

The white shirt turns into a light blue fabric, yet classy and functional but with a touch of lightness.

Sharp lines but subtle with soft materials and finishes.

Rettangola as well as the Quadra, represent the very first steps of Contardi's collection and have an important part into the Classics.

ATHENA

design_Massimiliano Raggi

In the Greek mythology, Athena is the God of knowledge, military strategies and webbing.

It is this last skill that inspired the designers when gave shape to the Athena: rectangular and oval shapes that blend together, matheric fabrics for the couturier touch and the black chrome finish to confirm the sense of equilibrium.

Athena stands as a true «passepartout».

CIRCUS

design_Alltogether

Simple and clean forms, to put everybody at ease.

Circus represents the Contardi's philosophy of the «white shirt», as though keeping its simplicity, it stands as a well executed garment you cannot do without .

The variety of fabrics, colours and dimensions, makes Circus a winning product.

ONGO DESIGN by JESSICA CORR

designed in new york
made in italy

The innovative **ongo** lamp, *a tzelan & contardi collaboration*, features convenient portability, high performance LED and an engineered battery-operated power source in two adjustable light intensities. Providing a soft, elegant glow to any tabletop or decorative setting, the **ongo** is available in precious metal finishes and handblown Murano glass for mix-and-match style.
